

## Trade Contractor of the Month.

Fullflow have received the award of “Trade Contractor of the Month” for its installation performance on site at Tungsten Park, Witney, Oxfordshire.

A new development of 7 Industrial Units, Tungsten Park Witney offers high-grade warehouse and industrial units.

With their reputation for technical excellence, quality products and continuing high standards of installation work Fullflow worked closely with MCS Group to ensure the safe, prompt delivery of the project.

Consisting of 1488m of polyethylene pipework and 62 rainwater outlets the syphonic rainwater systems have the capacity to drain a total of 1666 litres/second from the roof areas of 7 industrial units.

The award recognises the safe efficient on-site performance of the Installation. The award gave consideration to many aspects of the installation process. The Fullflow team of Jack Sanderson and Danny Hollingworth were particularly praised for their work in terms of progress of the installation, quality of the installation and compliance with MCS Site Rules and Regulations.
